EPOKA UNIVERSITY

PROJECT

Course: Web Technologies & Programming

Topic: Travel Agency

Date of submission: 05/27/2025

Academic year: 2024-2025

Group members:

1. Artemisa Hasalami
2. Denisa Korra
3. Megi Almadhi
4. Nikol Dalipi
5. Noel Zani
6. Sidrit Rrustemi
7. Viola Zeneli

Accepted by: Dr. Rrezart Bozo

1.1 Introduction

Travosy is a full-stack travel booking system enabling users to explore, book, and manage travel packages conveniently online. It offers curated vacation packages that include transportation, accommodation, meals, and guided tours.

1.2 Scope

The system allows:

- Users to browse packages, view details, and add to wishlist
- Registered users to book packages
- Admins to manage packages, users, and view bookings
- Collection of feedback via reviews and contact forms

1.3 Similar Products

- Booking.com
- Expedia
- TripAdvisor
- Agoda

1.4 Requirements

Functional Requirements

- User registration and login (admin/user roles)
- View and search travel packages
- Add packages to wishlist
- Book travel packages
- Add other travelers
- Submit reviews and contact forms

Non-functional Requirements

- Responsive web interface
- Secure authentication (password hashing)
- Scalable relational database
- Data validation and integrity checks

1.5 Features

- User Registration/Login
- Admin Dashboard
- Travel Package Listings
- Booking System
- Wishlist Management
- Review System
- Contact Form Submission

1.6 Design Overview

- Frontend: HTML/CSS/JS
- Backend: PHP
- Database: MySQL (MariaDB)
- User roles: Admin and Customer
- Passwords stored securely (bcrypt hash)

2.1 Database Schema

users:
